

THE SOCIETY FOR POLITICAL METHODOLOGY ad indicia spectate

POLMETH EUROPE 2025 - CONFERENCE PROGRAM

Link to papers that were shared (optional)

Session A MAR 1.04 | Session B: MAR 1.10 | Session C: MAR 2.04

Monday 7 April

Albert Chiu, A Framework for Evaluating Estimation Stability.Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in IndiaHate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in IndiaFelipe Torres Rapose Choice Architecture from Messaging Corruption Evidence from an Adaptive Experimental Evidence from Peru. Chair: Sascha RiazNirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in IndiaFelipe Torres Rapose Choice Architecture from Messaging Corruption Evidence from an Adaptive Experimental Shares Fake News: A Multi-Agent System fot Experimental Misinformation Resear with Large Language Models.14:30-15:00Coffee break14:30-15:00Coffee break14:30-16:30Session A: New methodsSession A: Applied causal inference14:30-16:30Session A: New methodsSession C: Images a data and LLMS for inference14:30-16:30Session A: New methodsJose Maycas-Sardi, Is That the Way? The Civic Cost of Tourism Expansion.Session C: Images a data and LLMS for inference14:30-16:30Senduttiner, Deep Latent Variable Data.Jose Maycas-Sardi, Is That the Way? The Civic Cost of Tourism Expansion.Oliver Ritmann, A Measurement Framework for Computationally Analysing Politicians Body Language.14:30-16:30Chair: Ken BenoitTorun Dewan, Candidate Exit and VoterOliver Ritmann, A Mace Ratkovic, Large Language Models for Unstructured Data.14:30-16:30Chair: Ken BenoitTorun Dewan, Candidate	10:00-11:00		Registration and coffee		
Image Analysis: Lessons, Challenges, and What's Next 12:30-13:00 Lunch break 13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - minorities 13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - minorities 14:30-15:00 Aramework for Evaluating Estimation Stability. John Kortner, Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz John Kortner, Bureaucrats' Beliefs and Dispatites in Service Provision. Rodrigo Fernandez Caba, Deca Kroitecure for Messaging Corruptio 14:30-15:00 Cortair: Sascha Riaz Ornar Hammoud Gallego, Visa Policy Effects in the Context of Porous Borders: Quasi-experimental Evidence from Peru. Yen-Chieh Liao, Who Believes and Wh Stames Fake News Z. 14:30-15:00 Coffee break Chair: Senghul Lee Applied causal inference 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Multi-Agent State News Z. 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Multi-Agent State News Z. 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Images Z data and LLMs for Corputati	11:00-11:05		Welcome from organisers		
Image Analysis: Lessons, Challenges, and What's Next 12:30-13:00 Lunch break 13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - minorities 13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - minorities 14:30-15:00 Aramework for Evaluating Estimation Stability. John Kortner, Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz John Kortner, Bureaucrats' Beliefs and Dispatites in Service Provision. Rodrigo Fernandez Caba, Deca Kroitecure for Messaging Corruptio 14:30-15:00 Cortair: Sascha Riaz Ornar Hammoud Gallego, Visa Policy Effects in the Context of Porous Borders: Quasi-experimental Evidence from Peru. Yen-Chieh Liao, Who Believes and Wh Stames Fake News Z. 14:30-15:00 Coffee break Chair: Senghul Lee Applied causal inference 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Multi-Agent State News Z. 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Multi-Agent State News Z. 14:30-16:30 Session A: New methods Session B: Applied causal inference Session C: Images Z data and LLMs for Corputati	11:05-12:30				
12:30-13:00 Lunch break 13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - misinformation & corruption Prashant Garg, Causal Claims in Economics. John Kortner, Bureaucrats' Beliefs and Disparities in Service Provision. Rodrigo Fernandez Caba, Disparities in Service Provision. Abert Chlu, A Framework for Evaluating Estimation Stability. Nirvikar Jassal, Hate-Crime and Coetnicity: Evidence from Caste-Segregated Police Enclaves in India. Rodrigo Fernandez Caba, Does the Style of Nisoritome and Coetnicity: Evidence from Caste-Segregated Police Enclaves in India. Omar Hammoud Gallego, Chair: Sascha Riaz Omar Hammoud Gallego, Gase-Apprimental Evidence from Peru. Felipe Torres Raposc Choice Architecture for New Methods 14:30-15:00 Coffee break Session B: Applied causal inference Multi-Agent System for Experimental 15:00-16:30 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for inference 14:30-15:00 Coffee break Session C: Costs of Touring Experimental Oliver Ritmann, A Measurement Framework for Computationally Analysing Politicians Body Language. 15:00-16:30 Session A: New methods Jose Maycas-Sardi, Is That the Way? The Civic Costs of Touring Expansion. Oliver Ritmann, A Measurement Framework for Computationally Anal		Image Analysis	-	nd What's Next	
13:00-14:30 Session A: Advances in causal inference Session B: Applied causal inference - migration & minorities Session C: Experiments - misinformation & corruption Prashant Garg, Causal Claims in Economics. John Kortner, Bureaucrats' Beliefs and Disparities in Service Provision. Rodrigo Fernandez Caba, Does the Style of Misinformation Conditi inference A Framework for Evaluating Estimation Stability. Nirvikar Jassal, Hate-Orime and Coetinicity: Evidence from Caste-Segregated Police Enclaves in India Police Enclaves in India Evidence from Peru. Felipe Torres Raposc Choice Architecture from Sec Provision. 14:30-15:00 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for inference 14:30-15:00 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for Computationally Analysing Politicians Body Language. 14:30-15:00 Chair: Ken Benoit Torun Dewan, Candidate Exit and Voter	12:30-13:00				
in causal inference Applied causal inference - migration & minorities Causal Claims in Economics. Experiments - misinformation & corruption Prashant Garg, Causal Claims in Economics. John Kortner, Bureaucrats' Beliefs and Disprities in Service Provision. Rodrigo Fernandez Caba, Does the Style of Misinformation Conditi its Effects? An Contenticity: Evidence from Caste-Segregated Police Enclaves in India. Mage of the context of Provision. Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India. Felipe Torres Raposc Choice Architecture fn Messaging Computor Evidence from an Adaptive Experimental Evidence from Peru. Chair: Sascha Riaz Omar Harmoud Gallego, Visa Policy Effects in the Context of Porous Borders: Quasi-experimental Evidence from Peru. Seesion B: Applied causal inference Seesion C: Images a data and LLMs for inference 15:00-16:30 Session A: New methods Seesion B: Applied causal inference Seesion C: Images a data and LLMs for inference 15:00-16:30 Germain Gauthier, Deep Latent Variable Models for Unstructured Data. Jose Maycaas-Sardi, Is That the Way? The Civic Costs of Tourism Expansion. Seession C: Images a data and LLMs for inference Aaron Kaufman, Adaptive Record Linkage. Torun Dewan, Candidate Exit and Voter Oliver Rithman, Atagpication to th Torus Dewan, Candidate Exit and Voter		Session A: Advances		Session C:	
Prashant Garg, Causal Claims in Economics. John Korther, Bureaucrats' Beliefs and Disparities in Service Provision. Rodigo Fernandez Caba, Does the Style of Misinformation Canditi its Effects? An Experimental Disparities in Service Provision. Rodigo Fernandez Caba, Does the Style of Misinformation Canditi its Effects? An Experiment in Brazil. Kevin Munger, Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India. Felipe Torres Raposc (Chair: Sascha Riaz) 14:30-15:00 Session A: New methods Orar Harmoud Gallego, Visa Policy Effects in the Context of Porous Borders: Quasi-experimental Evidence from Peru. Yen-Chieh Liao, Who Believes and Wh Shares Fake News /- Multi-Agent System fit Experimental With Agent System fit Experimental Evidence from Peru. 14:30-15:00 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for computationally Analysing Politicians Body Language. 15:00-16:30 Session A: New methods Session B: Applied causal inference Maeaurement Framework for Computationally Analysing Politicians Body Language. 16:moratine Models for Unstructured Data. Data. Naeavernement Framework for Computationally Analysing Politicians Body Language. 16:moratine Models for Unstructured Data. Aaron Kauffman, Adaptive Record Linkage. Torun Dewan, Candidate Exit and Voter Mare Ratkovic, Large Language Mode for S					
Prashant Garg, Causal Claims in Economics. John Kortner, John Kortner, Beaucrat's Beliefs and Disparities in Service Provision. Rodrigo Fermandez Caba, Caba, Does the Style of Misinformation Conditivi Is Effects? An Experiment in Brazil. Albert Chiu, A Framework for Evaluating Estimation Stability. Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India. Felipe Torres Raposc Choice Architecture for Messaging Corruption Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz Omar Hammoud Gallego, Visa Policy Effects in the Context of Porous Borders: Quasi-experimental Evidence from Peru. Yen-Chieh Liao, Who Believes and Whr Shares Fake News: / Multi-Agent System for Experimental Evidence from Peru. 14:30-15:00 Session A: New methods Session B: Applied causal inference Session C: Maesurenent Experimental Evidence from Peru. Session C: Multi-Agent System for Experimental Experimental Evidence from Peru. 15:00-16:30 Session A: New methods Session B: Applied causal inference Session C: Maesurenent Framework for Expansion. Session C: Maesurenent Framework for Expansion. Oliver Rittmann, Framework for User Rittmann, Analysing Politicians Body Language. 15:00-16:30 Marc Ratkovic, Large Language. Large Language. Oliver Rittmann, Framework for Computationally Analysing Politicians Body Language. 16:00-16:30 Korthan Kocak, Berman Rauthier, Deep Latent Variable Models for Unstructured Data.					
Prashant Garg, Causal Claims in Economics. John Kortner, Bureaucrat's Beliefs and Disparities in Service Provision. Rodrigo Fernandez Caba, Does the Style of Misinformation Conditi its Effects? An Experiment in Brazil. Albert Chlu, A Framework for Evaluating Estimation Stability. Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India. Rodrigo Fernandez Caba, Does the Style of Misinformation Conditi its Effects? An Experiment in Brazil. Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz Omar Hammoud Gallego, Visa Policy Effects in the Evidence from Peru. Felipe Torres Raposo Contex of Porous Borders: Quasi-experimental Evidence from Peru. 15:00-16:30 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for inference 15:00-16:30 Session A: New methods Jose Maycas-Sardi, Is That the Way? The Civic Costs of Tourism Expansion. Session C: Images a data and LLMs for inference Korhan Kocak, Sequential Updating. Deep Latent Variable Models for Unstructured Data. Resul Umit, Poling Station Size and Electoral Outcomes: An Instrumental Variables Approach. Oliver Rittmann, Amaron Kaufman, Adaptive Record Linkage. Marc Ratkovic, Large Language Mode for Statistical Inferenco Context Augmentatio with Applications to h Warc Sample Problem					
Causal Claims in Economics. Bureaucrats' Beliefs and Disparities in Service Provision. Does the Style of Misinformation Conditi- its Effects? An Evaluating Estimation Stability. Abert Chiu, A Framework for Evaluating Estimation Stability. Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India. Beliefs and Disparities in Service Provision. Does the Style of Misinformation Conditi- its Effects? An Experiment in Brazil. Kevin Munger, Bounding Knowledge Decay from Agnostic Temporal Generalisation Chair: Sascha Riaz Omar Hammoud Gallego. Visa Policy Effects in the Context of Porcus Borders: Quasi-experimental Evidence from Peru. Yen-Chieh Liao, Who Believes and WF Shares Fake News: / Multi-Agent System fc Experimental 14:30-15:00 Coffee break Session B: Applied causal inference Session C: Images a data and LLMs for inference 15:00-16:30 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for inference Models for Unstructured Data. Ses Norkin Resul Umit, Polling Station Size and Electoral Outcomes: An Instrumental Variables Approach. Oliver Ritimann, A Measurement Framework for Computationally Analysing Politicians Body Language.		Prashant Garo			
Economics.Disparities in Service Provision.Does the Style of Misinformation Conditi its Effects? An Experiment in Brazil.Albert Chiu, A Framework for Evaluating Estimation Stability.Nirvikar Jassal, Hate-Crime and Coethnicity: Evidence from Caste-Segregated Police Enclaves in India.Does the Style of Misinformation Conditi its Effects? An Experimental Most Saging Corruption Who Believes and Wh Shares Fake News / Muti-Agent System fat Evidence from Peru.14:30-15:00Coffee break15:00-16:30Session A: New methodsSession A: New methodsKorhan Kocak, Sequential Updating. Deep Latent Variable Models for Unstructured Data.Jose Maycas-Sardi, Is That the Way? The Civic Costs of Tourism Expansion.Session C: Images a data and LLMs for Comitext of Tourism Expansion.Korhan Kocak, Deep Latent Variable Models for Unstructured Data.Jose Maycas-Sardi, Is That the Way? The Civic Costs of Tourism Expansion.Oliver Ritimann, Analysing Politicians Body Language.Marc Ratkovic, Large Language Models for Unstructured Data.Aaron Kaufiman, Adaptive Record Linkage.Torun Dewan, Candidate Exit and VoterKarian Kaufinan, Adaptive Record Linkage.Torun Dewan, Candidate Exit and VoterOliver Ritimerno Statistical Inference			,		
Albert Chiu, A Framework for Evaluating Estimation Stability. Provision. Misinformation Conditi its Effects? An Experiment in Brazil. Kevin Munger, Bounding Knowledge Decay from Agnosotic Temporal Generalisation Misinformation Conditi its Effects? An Context of Porcus Felipe Torres Raposo Choice Architecture for Messaging Corruption Evidence from An Adaptive Experimental Evidence from Peru. 14:30-15:00 Confex Factor Context of Porcus Misinformation Conditi its Effects in the Context of Porcus Borders: Quasi-experimental Evidence from Peru. Misinformation Conditi its Policy Effects in the Context of Porcus Borders: Quasi-experimental Evidence from Peru. Misinformation Conditi its Periment 14:30-15:00 Coffee break Chair: António Valentim Misinformation Resear with Large Language Models. 15:00-16:30 Session A: New methods Session B: Applied causal inference Session C: Images a data and LLMs for inference 15:00-16:30 Session A: New methods Jose Maycas-Sardi, Is That the Way? The Civic Costs of Tourism Expansion.
